CREATIVE BRAND GUIDE / VERSION 02

KAEDUAS

Make every detail earn attention.

- GRAPHIC DESIGN
- SOCIAL CONTENT STRATEGY
- GENERATIVE VIDEO

SOUTH AFRICA / WORKING WORLDWIDE / 2026

A creative practice, with a clear point of view.

THE IDEA

Kaeduas is the creative practice of Qophe Junior Motsamai. It brings graphic design, social content strategy and generative video together through one human-led process — from the first idea to the final, finished piece.

THE PROMISE

Clear ideas. Considered craft. Work made to connect.

Small by design. Direct collaboration with the person shaping the work, without layers between the brief and the making.

Three ways to shape a brand story.

01

GRAPHIC DESIGN

Visual identity and campaign design across digital, print, packaging, point-of-sale and retail environments.

02

SOCIAL CONTENT STRATEGY

Platform-aware ideas, hooks and adaptable formats that help a brand show up consistently and grow across social channels.

03

GENERATIVE VIDEO

Human-directed short-form films. Photography, live-action production, generated imagery, art direction and editing are selected for the brief.

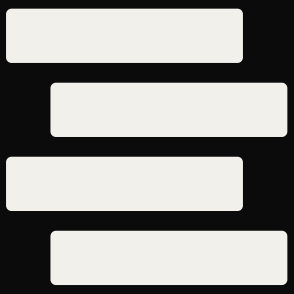

One clear brief. One considered response.

Human judgement. Hands-on making.

Generative tools are one material in the process — not the creative lead. The idea, direction, selection and finish stay in human hands.

01	**LISTEN**	Understand the audience, context and outcome the work needs to serve.
02	**SET DIRECTION**	Choose a visual route, tone and set of deliverables before production begins.
03	**MAKE**	Design, shoot, generate, write, build or combine the right methods for the brief.
04	**REFINE**	Review the work with care; adjust the details that change how it reads.
05	**HAND OVER**	Deliver finished assets in practical formats for the places they will appear.

The Strata mark, kept intact.

The stepped mark is a recognisable part of Kaeduas. Keep its proportions, spacing and direction consistent. Use the supplied master artwork; do not redraw or decorate it.

CORE PALETTE

INK
#0B0B0C

BONE
#F2F0EB

EMBER
#D9612F

CARBON
#141416

MIST
#B9B9C0

Ink and Bone carry the visual world. Ember is a deliberate accent — use it to focus attention, not fill every surface. Check contrast whenever text sits on colour.

Direct. Warm. Never padded.

TYPE ROLES

Archivo

Instrument Serif

JETBRAINS MONO / UTILITY LABELS

VOICE RULES

- Lead with the point, not the preamble.
- Use plain language; explain craft without jargon.
- Be confident, not inflated.
- Keep headlines short enough to remember.
- Credit concept work honestly; never imply a client relationship that did not happen.

One identity.
Made to live beyond the screen.

KAEDUAS · STUDIO GOODS / APPLICATION STUDY

The strata identity carried onto studio apparel and a mailer. A self-initiated photographic mockup showing how the Kaeduas system can move into physical touchpoints.

APPLICATION DECISIONS

APPAREL

A strong, simple mark on dark fabric.

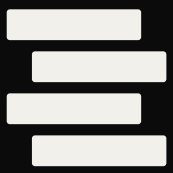

PACKAGING

Bone stock keeps the mailer quiet.

IDENTITY

The Strata lockup stays intact.

The full system stays consistent from screen to object.

Make the brand easier to recognise.

A useful brand guide turns good creative decisions into a system your team can use. It can cover positioning, voice, logo use, type, colour and real applications — scoped to what your brand needs.
